MORE POLITICAL RUFFIANISM DEVEL OPED.

Ruffianism was rampant in most of the Wards on Election asy, notwithstanding several of the police captains reported to their superior officer that all was quiet in their districts. Evidently they intended to prevent the real facts from being made public.

The Seventh Ward was the scene of several ruf-Sanly conflicts, the facts of which are being gradually developed.

Hotel, No. 154 East Broadway, of which Mr. John Marphy is the propietor, the rowdles engaged in the melec rushed into the house and there maliciously broke and destroyed de anters, tumblers, boking-glass

The rioters were finally ejected, and while on the sidewalk John Matthews, said to be a brother to the notorious Pat Matthews, drew a pistal and discharged two of the barrels at Mr. Murphy, no doubt with intent to take his life. For unately, however, his designs were frustrated, and the intended victim escaped mainjured.

About the same time, Mr. Heary Hyde, an old butcher and reputable citizen, 70 years of age, residing at No. 92 Rivington street, was assaulted near the Eulten Hotel, by some parties unknown, but by many sup-posed to be the Matthews crowd. Mr. Hyde was knocked down, stamped upon, and kicked in the most ecwardly and brutal manner, without cause or provo-cation. He was conveyed to his residence, where he bes, it is feared, on his death bed.

Coroner Connery was called to take the deposition of the victim, while he is yet able to relate the facts touching the murderous affair.

Matthews has been arrested and is now in prison. Justice Brennan refusing to liberate him on bail.

FIRES.

FIRE IN THE SEVENIH AVENUE.

Yesterday morning about 5 o'clock a fire was discovered in the grocery store of Elmund Lyons, No. 420 Seventh avenue, corner of Thirty-sixth street. Loss about \$200. The stock and fixtures are insure for \$600 in the Pacific Insurance Company. The building is owned by Thomas Butler, and is insured for \$3,000 in the Merchant's Insurance Company. Damage about \$40.

FIRE IN THIRD AVENUE.

About 9] o'clock Wednesday night a fire broke out in the machine shop of Messrs. Carman & Scott, corner of Third avenue and Eighty-seventh street. Damage about \$100. No insurance.

FALSE ALARM.

The alarm of fire in the Second District last night was caused by the burning out of a sooty chimney in Thirty-third street, near the Seventh avenue.

CITY ITEMS.

The Ladies of the Catholic Churches in this city will hold a Fair at the Crystal Palace, opening on Monday next, for the benefit of St. Vincent's Hospital in Eleventh street under the direction of the Sisters of Charity. It is but just to state that this Hospital is open to all needing its benefits, without question as to creed or country, and that the Sisters of Charity derive no emolument or advantage therefrom, save opportunity to aid the needy and comfort the suffering. We trust, therefore, that the appeal made in this case to the charity of our city nobly responded to, whether in the way of contributions toward fitting up the Fair, or in that of attendance after it shall have been opened. Few appeals to generosity are better founded than this.

AT LAST .- The Academy of Music is positively advertised to open next Monday. See advertisement.

Assuming Doubtful Powers.-We understand that in an up-town district the Inspectors of Election ejected Coroner Hills and others, who had taken a place in the poll-room to watch the canvassing of the ballots. They were requested to leave the room, but would not, claiming a legal right to be present, as they were not interfering with the Inspectors in the performance of their duties. Reason and law were ignored. The police were called in to put the intruders out, which they did. Complaint has been entered against the Inspectors for this assumption of power.

THREE STEAMBOATS AGROUND,-The steamboats Headrik Hudson, Francis Skiddy and New World ran aground near Castleton, a few miles from Albany, on Wednesday night, about 101 o'clock, while on their trip to this city. It appears that they turned aside from the channel to make way for a quantity of barges, burch. Sullivan County. He had black nair and black eyes, and which were in tow. The passengers were landed in small boats, and proceeded to Albany yesterday morning in time to take the cars for this city.

CAR UPSET-Nonony HURT .- Yesterday as a train of New-Haven cars was passing Yorkville, one of the cars was thrown off the track, supposed to be by a stone, and turned completely upside down. There were several passengers in the car, but none were se riously injured. That they were frightened is no wonder.

Recorder Smith again held Court at his rooms in Chambers street yesterday afternoon and entered into an examination of the parties charged with rioting on the 22d of October, 1856, at the public house of Geo. D. Davis, corner of Broadway and Eighth avenue. Upon the following affidavit the arrest of John O Toole and others was made:

and others was made:

City and County of New York, ss.—George D. Davis, of said city, being duly sword, deposes and says that he is the proprietor of the public house known as the Columbian House, situated at the junction of the Eighth avenue and Broadway; that a public meeting was called to be held at said house on Monday evening the 27th of October last of the clitzens of the Twenty-second Ward to raify the monitarion of James S. Libby shi other Democratic nominees, and to raise a banner at the time appointed for said meeting; a large number of citizens geneably assembled, and when some citizens, trends of Mr. Libby, arrived with music and entered the bar-room they were followed by a crowd, among whom deponent recognized John O'Toole, Hugh O'Roorke, who is an efficier of the Fwenty second Ward, another officer named John Coakley and Joseph Magune, also an officer, who was the only one that had on his police uniform, John Carman, Michael Carman, and several others to the number of twenty more; after intering the room John O'Toole cried out." Boys let us have a Fernando Wood and one Russell drink; and at that moment a stone was thrown from the outside to the second-tory window, which deponent believes was a signal for the Wood men to leave, for they instantly left the bar-room, and most of them ran over to the crowd where the stones were pieds, and commenced a reginal bombardonent on the house, breaking all the sashes, class, shutters, blinds, and done decanters, and tumblers, deconterns and he are a signal for the Wood men to leave, for they instantly left the barroom, and most of them is no over to the crowd where the stones were piled, and commenced a regular bombardment on the house, breaking all the sashes, tless, shutters, blinds, and doors, decanters, and tumblers; deponent and his son were compelled to fly for their lives, deponent requested Officers. Coakley and O'Rourke to arrest some of the rotters; O'Rourke regiled he had no star, and he and Coakley left went down the Eighth avenue, without attempting to quell the disturbance or arrest any of the parties, John O'Toole, who is in the office of N. Selak, went outside, and cried to the rioters; "Go it, boys! give it to them! give them hell; they devisely if." Deponent says that the following named persons were actively engaged in the riot, and adding, assisting, and encouraging the prioters to destroy deponant's property: John O'Toole, John Quin, Henry Roster, Patrick Fox, John Carman, Michael Carnan, Peter Masterson, John Masterson, Patrick Crowe, James Fox, Patrick Corey, William Masterson, Patrick Crowe, James Fox, Patrick Corey, William Masterson, Patrick Kearnan, Patrick Keese, Mike Connoily, Patrick Green, and Michael Green, who deponent prays may be structed and dealt with according to law. GEO, D. DAVIS. Swen before me this let day of November, 1988.

Mr. Spencer appeared on behalf of the accused, and asked the Recorder to pestpone the examination till some given time.

The Recorder said that he had not the power to do

so by statute.

Spencer.—Such things have been customary with Recorder.—I know that it has been customary, but I have rever done it and never will do it while I hold this office. I should consider, that if I did so I would be guitty of a gross violation of the statute, and higher to prosecution. It is my intention to send the papers before the grand jury forth-

MAN STABBLD IN THE FIETH WARD.-Last night a number of rowdles went into a lager bier saloon in Reade street, near Church, and created a disturbance. The proprietor was set upon by one of the ruffians, and in the protection of his life drew a knife and stabbed one of the party, inflicting a dangerous if not fatal wound. The wounded man was taken to the New-York Hospital, and the proprietor of the saloon arrested and lodged in the Fifth Ward Station-House.

Broging Girls.-It is well known that our house keepers and citizens are much annoyed by little begging girls. This class of children, if left in that mode of life, almost inevitably become idle, dissolute women. One great object of the Industrial Schools is to break up street begging. These Schools supply the children with the food and clothes they now ask from passen-gers in the street, and, at the same time, put then gers in the street, and, at the same time, put then under a discipline, and a Christian education. Will not housekeepers, and the police, and our citiz as generally, aid us in this, by sending such children to our Schools! A stranger cannot tell at once whether the story of such children is correct. But our visitors will at ence investigate, and do what they can to relieve. Charity bestowed through education, and an intelligent system is a thousands time better than this scartered charity through the streets. The Schools for poor children connected with this Society are: The Fourth Ward School, No. 22 Oliver street; German School, No. 14 avenue A: East River School, Fortieth street, near Third avenue: Hudson River School, No. 2.4 West Twenty Eighth street, near Night avenue; the transportation of the police. News Boys School (evening), Sun Buildings. On if sent to the office, the case of such children will at once be investigated.

Charles for the Poors—Dear Sir: This is the time when people like to make away with o'd clathes. Instead of throwing them away, or putting them into useless old trunks, will not your wealthy and comfortable readers remember that there are thousands of

able readers remember that there are thousands of poor who are beginning to shiver under the first cool blasts of Winter?

Give the cast-off garments where they will warm some poor little child, or clothe a ragged boy, who is just trying to make a man of himself, or camble a decent widow in poverty to send her scantily-dressed children to Ward-School and Sunday-School.

Much can be done, even with aid ciothes?

If a note, with the address, is considered to us, we can send for the clothes.

A CARD TO DRUGGISTS.

A person called Rick, whom we discharged from our em-ployment some four months since, has been putting up a spuri ous article of " The Balm or 1 000 Flowers." We put an in ous arrore of "The Balm of 1 000 Flowers." We put an in-junction on him. He then obtained an affidavit from one Fountaine, who swore the name was in common use among all perfumers; the Judge, not knowing to the contrary, dissolved the injunction. We immediately carried the case into the pertuiners; the Judge, but knowing to the contrary, dissolved the injunction. We immediately carried the case into the United States Court, where a permanent injunction will be granted. This is to caution all Druggiess from buying this spurious article, not only on account of its being spurious, but its being illegal to vond any counterfeit article without setting forth the same to the buyer. The genuine article will in all cases bear the signature of FETHINGS & Co.

THURSDAY, Nov. 6-F. M. The business at the Stock Board was enothious today, embracing about 55,000 shares at the Boards and in the street. This amount has scarcely if ever been exceeded. The par value of these stocks is some four and a half millions of dollars. Notwithstanding this large amount of stock put on the market the buoyancy of the last four days was more than sustained, and higher prices ruled until the Second Board, when the rapid advance brought out more stock than the market would take, and some of the funcies reacted. At the close of the Second Board, however, there was more firmness, and a disposition to buy, especially on time. The bears put out a considerable amount of contracts, but the bidding on buyers long options was very active, and at unusual differences on the cash price. It appears to be generally conceded that what of the annual fall panic we were to have has been experienced, and that the sixty day purchases are almost certain to pay a profit. One of the strongest elements of the market to-day was the foreign news per Canada, which was unexpectedly favorable. The advance in Consols, and the increase in the bullion of the Bank, together with the unchanged rate of interest, were taken as an indication that financial affairs were assuming a more satisfactory and settled shape, and that fears of a crisis in France had subisded. The amount of the increase reported by telegraph as having taken place rror, but the fact of some increase is undoubted. This improved state of affairs abroad gave great confidence to buyers for a rise, and in some stocks the quotations are higher than before the recent fall. Erie mproved to 61] # 61], an advance of 21 \$\psi\$ cent on yesterday's price, but closed firmly at 60%, after having reached to 601. Reading sold as high as 78, buyer thirty, but at the close was offered at 77%. This is an advance of 21 P cent since the close of business yesterday. Our yesterday's statement of the resignation of Mr. Tucker and the appointment of Mr. Cullen to fill the vacancy is confirmed to-day by the Philadelphia morning papers. We hear that Mr. Cullen has commenced his administration by abolishing the allowance of dumpage on coal, and that this has caused great dissatisfaction among the coal-men. Another states that he has reduced the tolls an amount just equal to the dumpage, which would leave the cost of transportation just what it was. The tunnage of the week is reported by telegraph at 37,000 tuns, which is small. Central advanced to 851 with large sales, including 1,350 shares at 85 seller sixty days, but at the Second Board the market fell back to 811, which is 14 & cent improvement on yesterday. Panama advanced 1 & cent, selling at 90. Cumberland improved ? & cent and was in demand, with but little stock offered. The movement in Western shares was very strong, with a large disposition to buy on time. every description of stock improved-Michigan. Southern 11 & cent, and 7 & cent since Monday, but at the close it was lower, and sold at 86]. The receipts for October have not been received in fall. but will be about \$320,000. Michigan Central sold at 941, which is higher than before the recent depression. Pittsburgh improved to 551, with unusually large sales. Galena advanced to 110-an improvement of 3 ? cent since Monday. Toledo was in active demand, but was not pressed on the market; the closing price was 691an improvement of | & cent. The October receipts given below are considered very favorable, and are the largest ever taken in one month. Illinois Central was firm at 1154. Rock Island advanced to 924. seller sixty-an improvement of 5 P cent from the lowest point. La Crosse has been the most buoyant stock since the turn of the market having advanced from 70 to 80 since Monday. The purchases have been mostly by outsiders, and there have been many bids on buyers' option which could not be filled. In Railroad bonds the transactions are moderate, but the market is very strong. Himois Centrai givanced 14 & cent., selling at 894. These boads are very scarce. State stocks sold to the extent of \$70,000, at advancing prices. There was a bear sale of Missouris at 874, seller four months, while the cash

The market for Exchange is yet inactive for the Satorday steamer, and the tendency of rates is downward. Bankers Sterling has been sold to-day at 8; F cent. and the indications now are that the maximum rate for Saturday will be 9 P cent. First-class Bills Lading have been sold at 8 P cent. The supply of Bills is quite large, and the demand moderate. The telegraph'e advices from New-Orleans are of large transactions in Cotton, which will increase the supply.

Freights are again a trifle lower. To Liverpool 40,000 bush. Grain at 8; #9d.; 4,000 bbls. Flour at 2s. 500 bales Cotton at 4d. To London, 7,000 bush. Grain at 11 a 114d.; 2,000 bbls. Flour at 3s. 14d. To Glasgow, Flour 2s.: 12,000 bush Grain at 12d. in shipper's bags. A vessel of 150 tuns was taken to load Molasses at Franklin, La., for Richmond, Va. at \$5 50 under deck, and \$5 on deck.

The Sub-Treasury loses largely to-day to the street. The business was: Receipts \$93,895 53; Payments, \$342,685 24; Balance, \$13,025,545 48. The business of the Clearing-House was large-

\$31,818,000. In consequence of the heaviness of exchange the shipment of gold by the steamer on Saturday promises to be less than was last week anticipated. We hear at present of \$450,000 or \$500,000 going, and a portion of this would not have been shipped had not

the purchase of the bars been made some time since. The Pennsylvania Railroad Company has declared a balf-yearly divides d of four per cent, payable on the

There is some relief to-lay in the Money market, compared with linst week, but the demand is still at tive in steek circles. On good searnites, however, it is much less difficult to find money on call. Some of the banks, we hear, show a disposition to lend more freely under the improved appearance of financial affering shroad. The relief, he wever, which we have rolleed is more the result of a returning confidence than any increased supply of capital.

The earnings of the Cleveland and Tolodo Road for October shows a large gain on the same month issty year, notwithstanding the serious interruption of the passenger business by reason of the engineers strike on the Eric Road. The freight traffic, it will be seen.

The October earnings of the Norwich and Worcester road will show about \$3,000 increase over last year. The October earnings of the La Crosse and Milwankee Railroad result some \$5,000 better than the largest estimate of the Company. The amount of grain sent forward by this road was immense.

The Independent gives the annexed list of failures: The Independent gives the annexed list of failures:
We have nothing to report respecting the state of the Dry Goods market, which seems to be in a state of suspended animation. When the excitement of the election is over, some return to life is expected. The goods remaining over are light in amount. There is no anxiety to press sales on an unwilling market, and prices of all staple and desirable goods are steady.

At Philadelphia the stocks of the banks that have

ust made dividends are held generally higher, including dividends, than before the dividends were announced. The amount of bills on the market is not large, but the rate of discount is well kept up. Capitalists take the best paper offering at 10 a 12 F cent discount. Railroad acceptances are quoted at 15.018 From the New Orleans Consent of 20th

There were negotiations of strictly A I paper yea-terday and to-day at 6 a 7 \$\text{ ent}\$, the continuous and March. Long-dated acceptances are scarce, and the market is scantily supplied. The banks are doing nothing over 60 or 90 days, of which they have as much as they desire.

The great feature of the times is the exchange mar-ket; yet with the large sales of cotton on Frigar, Sat-

ket; yet with the large sales of cotton on Friday, Saturdey, and Monday, amounting in all to 34,000 bales, there is no increase in the quantity of sterling bills, though these sales can hardly be in readiness for movement under two or three days; neverthele s the pro-liminary steps do not appear to have been taken for negotiations, unless the increased supplies of New York funds cover the transactions by the exchange be ing made on that point and the sterling made from there to meet the inland bills. The rates for remittance to-day or London direct were 9x91 prem. For inv stment there were offers at all prem. For investment there were offers at all figures, from 81, 81, 81, to 9 P cent prem. Buyers do not appear inclined to go over 9 for the very best signatures. In bills of lading we heard of no sales, but 80 81 and 82 are the ruling rates. Francs are under a cloud, and the highest offer for A I was 5.25, drawers holding at 5.231, but so long as the New-York market is in a tog, with a downward tendency there must be a corresponding heaviness here. dency, there must be a corresponding heaviness here, as the greater part of the French exchange purchased in this market is sent to New-York and theresold. Bits from here are generally sold under indersement in New York, and being made equal to the bighest grade of New-York bills, always ready sale in that market. Northern fu downward tendency. The most prominent Bank was selling checks to-day to its customers at par, while other Banks were asking a j premium. Private draw-ers were willing sellers at par to a j discount. There were heavy operations in time bills; upward of \$400,000, in various sums, found buyers for investment at 11 11 22 and 21 discount for 60 days' sight. \$40,000 taken at the latter rate by one party.
